**KEEP GOING. KEEP MOVING. KEEP WORKING.**

# SILO SYSTEMS FOR ANY JOBSITE

SPEC MIX Silo Systems are available in numerous sizes and capacities for mobility and flexibility that optimize your mixing station. Decrease labor and product waste, increase safety and maximize productivity with a silo system specifically chosen for your project. We are your solution for every job!

## D2W CONTINUOUS MIX

### D2W CONTINUOUS MIXING - THE PORTABLE BATCH PLANT

Engineered for mortars or grouts, this high-output system mixes up to 8 yards per hour with no labor to deliver pure profitability.

## TEN BAGGER

### TEN BAGGER SILO - THE BIG PRODUCER

The large capacity, high production silo that keeps the biggest crews busy.

## G7000

### G7000 SILO - THE JOBSITE WORK HORSE

The original contractor tool for mixing daily production and man power.

## PA4000 POWER AUGER

### AP4000 POWER AUGER - THE POWERHOUSE

This low-profile system is easily loaded with small forklifts required for interior work and jobsites with low decks and tight spaces.

## PA1000 POWER AUGER

### AP1000 POWER AUGER - THE UTILITY TOOL

This pallet-sized silo offers bulk bag material savings and floor to floor mixing for efficiency.
