COVID-19 JOB SITE SAFETY GUIDE

Maintain a minimum distance of 6-feet from others

- Avoid gatherings of any size, and anytime two or more people must meet, ensure minimum 6-foot separation
- Identify “choke points” and “high-risk areas” where workers are forced to stand together, such as hallways, elevators, break areas, and hoists - control them so social distancing is maintained
- Minimize interactions when picking up or delivering materials

Use personal protective equipment and alternate work practice controls

- Provide and wear the proper PPE
- Keep the dust down by using engineering and work practice controls, specifically through the use of water delivery and dust collection systems

Post required hygienic practices visible for all workers

- Clean and disinfect tools and equipment frequently
- Clean shared spaces and surfaces i.e. trailers, break/lunchrooms, door handles, machinery controls, etc. frequently
- Job site trash to be collected frequently while using gloves
- Avoid sharing tools with co-workers. If not, disinfect before and after each use
- Arrange for any portable job site toilets to be cleaned by the leasing company at least twice per week and disinfected on the inside

Do not come to work if you’re feeling unwell

- Keep a daily log of employees
- Send home those who seem unwell
